WILSON TO ENTER

RACE FOR DEMOCRATIC NOMINATION FOR PRESIDENT.

TO BE A PROGRESSIVE

Itinerary for Lecture Tour Indicates Campaign for Presidential Nomination in 1912.

The St. Louis Republic contains the following dispatch from its Washington correspondent:

That Governor Woodrow Wilson of New Jersey has formally entered the the presidential nomination next year is the opinion of national politicians. Such is the interpretation of his speech before the Pewter Platter Club of Norfolk, Va., yesterday. This view is held to have corroboration in the fact that Governor Wilson has made other engagements which will carry him to all sections of the country in the near future.

The New Jersey Governor's "popular government platform" defines him, according to political thought here, as appealing to the more radical Democratic sentiment. He will be violently opposed by the conservative Democrats of the type of Senator Bailey of Texas. His utterances and proposed measures are approved by the so-called Democratic progressives.

An interesting campaign within the Democratic party is regarded as certain to take place before the national convention assembles next year. It is the belief here that the radical Democratic strength, especially such of it as is influenced by William J. Bryan, will commend the presidential aspirations both of Speaker Champ Clark and of Governor Wilson. The drift indicates that the opposition will rally behind Governor Harmon of Ohio. Harmon advocates practically all of the Wilson program, yet the conservatives profess a greater confidence in the Ohio man.

But there is even more turmoil in Republican ranks. Recently talk of Roosevelt as a candidate for a third term has been revived among the Republican insurgents.

Many insurgents in congress realize that Senator La Follette, who is an active candidate for the Republican nomination, has no chance of getting it.

The Roosevelt suggestion is not made out of any particular friendship for him, but as a matter of expediency. The insurgents, as well as the Republican regulars, want to see a Republican president elected in 1912. They do not consider the present outlook to be in the least degree hopeful. They think it is almost impossible to reelect President Taft and they are casting about for somebody who can win.

Meanwhile, La Folette is building up a following, and is said to be establishing some sort of an organization in every state where he can get a foothold. But as things stand, almost every Republican in Washington believes that President Taft is going to be renominated.

ICE TO BE HIGHER IN CITY THIS YEAR

Announcement was made Monday by the Everhart Ice Company that an advance of from 5 to 10 cents a hundred pounds would be charged for ice after that date. William Everhart in speaking of the raise says: "I can wholesale the ice this year for more than I am selling it for in Maryville, owing to the outside demand for ice. The people up North didn't get the ice this year to meet the demand, owing to the winter being not very severe. Since this being the case, I raise the price of ice in Maryville."

Mr. Everhart put up a number of tons of ice this year, and with his plant to manufacture ice, will not have very much over to meet the demand of the Maryville people. His plant turns out about fifteen tons daily. In the summer months of July and August it takes on an average of 25 tons to supply his customers.

Miss Janet Beachler of Stanberry, who has been visiting Mrs. Welby Thomas at 204 North Mulberry street, returned to her home Tuesday morning.

TO TOUR THE COUNTY TO GATHER SAMPLES

Prof. J. E. Cameron President Taylor, and W. A. Blagg, president of the board of regents will tour the county in an automobile Wednesday to gather the samples for the farmers' seed corn test. Forty or more samples of corn will be secured from the representative farmers of the community, and tests will be carried on on the ground. The seed used will be taken out of the planters, just as the farmers are using it, and will not be graded or selected in any manner. Each sample of corn will be in plot by itself and every grain planted will be carefully watched and the results recorded. In the fall a complete record will be sent to each farmer who has furnished seed for the test.

Another experiment will be carried on in the old apple orchard and the ground west of it. This will be the individual ear seed corn test. This corn is some of that raised on the Normal grounds last year and each ear has tested out 100 per cent strong. This year's harvest will be sold for seed.

Abraham Hagey was appointed by the county court as justice of the peace of Nodaway township to fill the vacancy caused by a justice of the peace-elect failing to qualify.

The court will have a road case for trial on Friday. The petition of Henry Eckert Omer Catterson, Fletcher Dalby and twenty-eight others was filed with the court Monday asking for a vacation of a public road. The petition says that notice had been filed according to law in three public places in that community of the proposed change.

A remonstrance petition was also filed with the court signed by M. J. Sherlock, P. J. Tobin, Richard Hambin and twenty-five others against the vacation of the road. The court decided to hear the case on Friday.

The beginning of eye troubles

Usually come very gradually.
Often for years there are indications that the sight is failing.
It's a great mistage not to heed these first signs.
Those who get glasses at the first indication of something wrong miss a lot of suffering.
But no matter in what shape your eyes are in, there is always relief at our optical department.

RAVENWOOD.

We had a very nice shower last Friday night, and Saturday was a real summer day. Saturday night we had a [illegible] rain which put all vegetation on a boom.

It had been so cold and dry that everything had nearly ceased to grow and many of the growling prophets had been predicting a dry summer, a failure in crops, no fruit and hard times in general.

Early Monday morning it rained a little and then snowed a little, and we fear it will wind up with frost.

The Ravenwood High school closed last Friday. On Wednesday night Dr. Taylor of the Northwest Normal delivered a very fine address to the graduating class and the people generally. The doctor is a fine talker and always gets a good crowd here.

Prof. King will cultivate a crop of corn this summer and take charge of the Ravenwood school again this fall. He does not believe in loafing and so teaches his boys.

SEVERAL MORE TOWNS SACKED

Revolutionists Are Lead by Wu Sum, a Chinese, Who Was Educated in Japan, and a Brigand Chief Named Luk Heads Outlaws.

Hong Kong, May 2.—Rebellion, brigandage and anarchy are stalking through the western half of Kwang Tung province, murdering, pillaging and burning. The loyal troops are trying desperately to crush the uprising, the seriousness of which is revealed in further dispatches from Canton.

Wu Sum, a Chinese, who was educated in Japan and has adopted the dress of western countries, is the leader of the revolt against the Manchu dynasty. The brigand chief, Luk of Shun Tak, is at the head of a horde of outlaws, whose object is robbery and murder.

Following the standards of these two men are anarchist groups, to whose purpose the present outbreak lends itself most advantageously.

These combined forces have thrown themselves with fanatical disregard of their own lives against the troops, and since the first outbreak much blood has been shed. Sedition is rife among certain of the troops and it is feared that the disaffected soldiers will desert their officers if the revolters appear to have the upper hand.

Official advices and the refugees arriving from Canton confirm the sinister reports. Bodies of the slain lie in the streets of the city. Famine prices are asked for foodstuffs and the shops generally are closed. In the panic there have been few attempts to bury the dead and the stench from the decomposed bodies fills the air.

Fight From Street to Street.

The revolters have withdrawn to a great extent from Canton and are devastating the country to the west along the West river. Before falling back they fought the troops from street to street, many persons being killed. They attacked the provisional arsenal and, being repulsed, gathered in an immense rice store, which they barricaded with bags of rice. From the building they threw bombs into the attacking troops and were only dislodged when the building was set on fire. Many of the revolters escaped, but thirty or more died in the flames, while others killed themselves to avoid capture.

While the fighting was progressing in the streets, Chinese gunboats patrolling the West river fired into several parties of rebels, slaughtering 200 of them.

QUIET MAY DAY IN EUROPE

Small Riot in Streets of Paris Is Only Demonstration.

Paris, May 2.—Detachments of troops patrolled the squares and open places of the city in anticipation of workingmen's May day demonstrations. Less than half of the workingmen of the city observed the holiday.

A crowd, estimated at 250,000, gathered in the Place de la Concorde and the adjacent streets. The greater number were sightseers, but in the throng were many thousands inclined, apparently, to make a demonstration. The latter pressed into the square, resisting the police and breaking through the line. When the disturbers became more aggressive the cavalry charged into the crowd repeatedly.

An officer was stabbed in the leg. One policeman was struck over the head and rendered senseless. Among the onlookers were many American tourists.

Berlin, May 2.—The workmen of Berlin held seventy-five May day meetings, at which resolutions favoring disarmament in the interest of world peace were adopted. Perfect order was maintained.

Mexican Rebels Bested by Federals.

Douglas, Ariz., May 2.—Reports from the towns of Pitiquito and Caborca, in the state of Sonora, Mexico, have been received here, telling of desperate fighting there between Mexican federal troops and the insurrectos, 300 on each side. The federals used a machine gun and defeated the rebels in both towns. The government troops finally occupied both towns, which the rebels had previously held, the latter leaving twenty dead and many wounded.

Ten Chinamen Starve on Island.

San Diego, Cal., May 2.—Ten Chinamen are on the northwest shelter island, eighteen miles from this city, marooned by smugglers. They have been ten days without water and practically with no food. Two are dying and another is delirious. The immigration launch Orient, Captain Chedney, left to rescue the Chinese.

Fire Loss Three Millions.

Bangor, Me., May 2.—Between $2,500,000 and $3,000,000 will cover the financial loss of the fire which destroyed approximately 285 residences and about 100 business structures here. Search was made of the ruins for possible victims, but only two were accounted for as dead.

NO MORE GRAY HAIR

It is easier to preserve the color of the hair than to restore it, although it is possible to do both. Our grandmothers understood the secret. They made and used a "sage tea," and their dark, glossy hair long after middle life was due to this fact. Our mothers have gray hairs before they are fifty, but they are beginning to appreciate the wisdom of our grandmothers in using "sage tea" for their hair, and are fast following suit.

The present generation has the advantage of the past in that it can get a ready to use preparation called Wyeth's Sage and Sulphur Hair Remedy. As a scalp tonic and color restorer, this preparation is vastly superior to the ordinary "sage tea" made by our grandmothers.

This remedy is sold under guarantee that the money will be refunded if it fails to do exactly as represented.

This preparation is offered to the public at fifty cents a bottle and is recommended and sold by

[illegible] Pharmacy.

FENCING LAWS DO NOT APPLY

States Lose Legal Fight Against Forest Reserves.

VIOLATION OF RULES IS CRIME

Supreme Court Decides Federal Government May Say How Its Property May Be Used—Wilful Trespasses Not Authorized by Existing Measures.

Washington, May 2.—The legal battle against the forest reserves of the west in particular and conservation by the federal government of natural resources in general was lost in the supreme court of the United States.

That tribunal not only upheld the constitutionality of the establishment of the reserves for any national and public purpose, but it settled once for all that the federal government and not the states may say how the reserves may be used.

The immediate results of the conclusion of the court are that Fred Light, a Colorado cattleman, will remain enjoined from allowing his cattle to graze on the Holy Cross forest reserve in Colorado, and that Pierre Grimaud, K. P. Carjous and Antonio Inda, California sheepmen, must answer to the indictment charging them with grazing sheep upon the Sierra forest reserve without a permit.

The subject was dealt with in two opinions delivered by Justice Lamar. The basic principle upon which he proceeded was that "the nation is an owner and has made congress the principal agent to dispose of its property."

"The United States can prohibit absolutely and fix the terms on which its property may be used," said the justice in the Colorado case.

Private Owner Has Protection.

"As it can withhold or reserve the land it can do so indefinitely. It is true the United States does not and cannot hold property as a monarch may, for private and personal purposes. But that does not lead to the conclusion that it is without the rights incident to ownership, for the constitution declares that 'congress shall have power to dispose of and make all needful rules and regulations respecting the territory or property belonging to the United States.'

"'All the public lands of the nation are held in trust for the people of the whole country,' and it is not for the courts to say how that trust shall be administered; that is for congress to determine. The courts cannot compel it to set aside the lands for settlement, nor to suffer them to be used for agricultural or grazing purposes; nor interfere when, in the exercise of its discretion, congress establishes the forest reserves for what it decides to be national and public purposes. In the same way and in the exercise of the same trust, it may disestablish a reserve and devote the property to some other national and public purpose. These are rights incident to proprietorship, to say nothing of the power of the United States as a sovereign over the property belonging to it. Even a private owner should be entitled to protection against wilful trespasses and statutes providing that damages done by animals cannot be recovered unless the land had been inclosed with a fence of the size and material required, do not give permission to the owner of cattle to use his neighbor's land as a pasture. They are intended to condone trespasses by straying cattle; they have no application to cases where they are driven upon unfenced land in order that they may feed there.

"Fence laws do not authorize wanton and wilful trespasses nor do they afford immunity to those who, in disregard of property rights, turn loose their cattle under circumstances showing that they were intended to graze upon the land of another. This the defendant did under circumstances equivalent to driving his cattle upon the forest reserve."

OHIO SCANDAL TO GRAND JURY

Methods Will Prevent Guilty Men Taking Immunity Baths.

THREE DETECTIVES ARRESTED

Men Who Paid Bribes to Lawmakers Taken Into Custody at Columbus. Twenty Members of Legislature Said to Be Involved.

Columbus, O., May 2.—There will be no legislative investigation of bribery charges made against a score of members of the Ohio general assembly, at least for the present.

The investigation will be made by the Franklin county grand jury, under the direction of Prosecuting Attorney Edward Turner. This was decided at a conference at the governor's office. The reason is stated to be that this method will prevent members of the legislature under suspicion from escaping through an immunity bath.

At a conference between Speaker Vining of the house and the detectives he was told by the detectives that Representative Nye had told them that Vining could be bought for $1,000. The speaker became furious at the story.

"I am inclined to the belief," said the speaker later, "that I have been made a tool of. If that is true, I want to find it out. Above all, I want a full and complete investigation."

Three detectives, F. S. Harrison of New York and A. C. Bailey and David Berry of Chicago, were arraigned in police court for alleged bribery of Representative George B. Nye. Detective Harrison names four state senators with whom he had dealings and to whom he declared he paid money. Bailey and Harrison were bound over to the grand jury in bonds of $5,000 each and Berry was bound over to the grand jury on charges of bribery in bonds of $2,500. Their bonds were signed by a surety company.

"We have stenographic copies of every word that passed between Representative Nye and the other men involved in this matter," said Detective Harrison.

"The evidence was secured by means of a dictaphone. A dictaphone consists consists of a number of sensitive discs so constructed that the sounds spoken in a room can be carried forty or fifty feet by means of wires connected with an electric battery.

"I met Mr. Nye in this room. In the next room was a stenographer. A door connected the two rooms. In front of the door I placed a couch in my room. The dictaphone was under the couch, the wires running into the next room, where the stenographer sat with a telephone arrangement on his head. Whenever Nye or anyone else whose conversation I wanted recorded entered my room, my tip to the stenographer was the usual stereotype greeting, extended unusually loud. 'How are you this morning, doctor?' was my signal to the stenographer when Nye came in.

"Twenty members of the legislature are involved in this scandal. If I had been here a week longer, I would have run out of money, they were so eager for it. It will take us a week to tell all we have found out."

CANTON REVOLT IS SPREADING

Brigandage and Anarchy Added to Horrors of Rebellion.

SEVERAL MORE TOWNS SACKED

Revolutionists Are Lead by Wu Sum, Chinese, Who Was Educated in Japan, and a Brigand Chief Named Luk Heads Outlaws.

Hong Kong, May 2.—Rebellion, brigandage and anarchy are stalking through the western half of Kwan Tung province, murdering, pillaging and burning. The loyal troops are trying desperately to crush the uprising, the seriousness of which is revealed by further dispatches from Canton.

Wu Sum, a Chinese, who was educated in Japan and has adopted the dress of western countries, is the leader of the revolt against the Manchu dynasty. The brigand chief, Luk of Shun Tak, is at the head of a horde of outlaws, whose object is robbery and murder.

Following the standards of these two men are anarchist groups, whose purpose the present outbreak lends itself most advantageously.

These combined forces have thrown themselves with fanatical disregard of their own lives against the troops, and since the first outbreak much blood has been shed. Sedition is rife among certain of the troops and it is feared that the disaffected soldiers will desert their officers if the revolters appear to have the upper hand.

Official advices and the refugees arriving from Canton confirm the sinister reports. Bodies of the slain lie in the streets of the city. Famine prices are asked for foodstuffs and the shops generally are closed. In the pa

Free Remedy For Weak Bowels

There are two forms of bodily cleanliness, the external and the internal. The one is for your pride in yourself; the other for your life and health. Both are important, but of vastly more importance in the long run is the internal cleanliness.

This is one point that all should watch about their body—the cleanliness of the bowels. Keep them clean and free from obstructions. To do this you must have one or two movements of the bowels each twenty-four hours. If your system does not do this naturally, in the process of eating and drinking, then you must obtain aid of some kind. After finding out that cathartics, salts and such things relieve you for a day, but bind you up worse than ever the next day, then try a simpler and more natural remedy like Dr. Caldwell's Syrup Pepsin.

For the skeptical the best way to begin is to send your name and address to Dr. Caldwell for a free sample bottle. Use it as directed and if it convinces you that a brief continuance of its use will relieve you permanently—that it will train the stomach and bowel muscles to again work naturally at certain hours—then buy it of your druggist at fifty cents and one dollar a bottle, just as so many others are doing. They began with a sample bottle, then bought a fifty cent bottle, and now, fully convinced of its merits, they buy the one dollar family size. All the members of the family can use it down to the very youngest.

A brief use of this grand laxative tonic will cure constipation in its worst form, indigestion, liver trouble, sick headache, sour stomach and such ailments and keep you in continuous good health at a very small cost. Such is the experience of many families like that of Mrs. Oscar Fleener, Unionville, Ind., J. F. Daniel, Saron, Tex., and hundreds of others that could be named.

Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. Explain your case in a letter and he will reply to you in detail. For the free sample simply send your name and address on a postal card or otherwise. For either request the doctor's address is Dr. W. B. Caldwell, 509 Caldwell building, Monticello, Ill.
